EMMC Allergy and Immunology Specialists

Helping our adult and pediatric patients feel more comfortable during every season is a priority. At EMMC Allergy and Immunology Specialists, we offer testing to uncover the source of environmental and food allergies. We treat asthma, dermatologic issues, and allergies to medicines. We provide a variety of procedures for treating intolerances and immunologic reactions.

Treatment Offered:
- Allergic rhinitis (hay fever)
- Anaphylaxis
- Asthma, including nasal polyps and samter’s triad
- Atopic dermatitis (eczema)
- Contact dermatitis
- Drug allergy
- Eosinophilic disorders including hypereosinophilic syndrome and eosinophilic esophagitis
- Food allergy
- Food intolerance
- Hereditary and acquired angioedema
- Immunodeficiency disorders
- Insect hypersensitivity
- Latex allergy
- Ocular allergy (eyes)
- Sinusitis
- Urticaria (hives)

Procedures Offered:
- Skin testing for environmental and food allergies
- Subcutaneous immunotherapy for environmental allergens (allergy shots)
- Skin testing for penicillin
- Sublingual immunotherapy for environmental allergens
- Insect venom skin testing
- Insect venom desensitization
- Patch testing
- Spirometry and FeNO (breathing tests for asthma)
- Food challenges
- Drug challenges
- Drug desensitization
- IVIG treatment
- Xolair and Nucala injections for asthma

Elias Akl, MD
Education: University of Balamand
Fellowship: Virginia Commonwealth University
Residency: Icahn School of Medicine at Mount Sinai
Certification: American Board of Internal Medicine
EMMC Behavioral Medicine

EMMC Behavioral Medicine is a multidisciplinary field concerned with the association between behavior and health. Areas of research and clinical practice include disease prevention, wellness, chronic illness (cancer and heart disease) and pain and symptom management. Clinical psychologists who have specialized training in behavioral medicine provide behavioral medicine services, but physicians, nurses, and other professionals also work in the broad field of behavioral medicine.

Our services:

- Stress management
- Chronic pain and headache management
- Mild traumatic brain injury, accident, and sports injury
- Physician practice consultation
- Surgery preparation including weight reduction, breast cancer, or other surgery
- Multiple Sclerosis
- Cancer coping and survivorship
- Memory and attention problems due to chemotherapy

FOR PATIENTS

- The Behavioral Medicine Service is part of the Maine Rehabilitation Outpatient Center of Eastern Maine Medical Center. The overall aim is to restore and enhance function to optimize quality of life regardless of the health challenge. “Treating the whole person” is the basic philosophy.
- The first step is usually an hour long visit with the behavioral medicine psychologist to better understand the situation. At that point, a plan can be developed to include one or more of the following:
  - A series of individual appointments, usually 6-12 visits
  - One-time consultations and planning
  - Referral to our three-session pain management class
  - Flexible treatment planning for those who live far away

Nina E. Boulard, PhD
Doctoral Training: University of Maine
Internship: Boston VA Healthcare System - Harvard Medical School
Areas of Interest: Bariatric surgery preparation, management of chronic pain, coping with chronic illness, initiating and maintaining behavioral change

Bryan K. Fritzler, PhD
Doctoral Training: University of Maine
Internship: Boston VA Healthcare System - Tufts Medical School
Areas of Interest: Bariatric surgery preparation, management of chronic pain, coping with chronic illness, initiating and maintaining behavioral change

Agnieszka Serwick, PhD
Doctoral Training: University of Maine
Internship: Greater Hartford Clinical Consortium
Areas of Interest: Bariatric surgery preparation, management of chronic pain, health promotion behaviors
At EMMC Northeast Cardiology Associates, we provide comprehensive cardiac care from outpatient consultation service to leading edge, advanced diagnostic tests and therapies. Our cardiologists are board eligible/certified by the American Board of Internal Medicine in cardiovascular disease. We are dedicated to working with referring physicians and hospitals throughout Maine to bring outstanding care to our patients.

EMMC Emergency Professional Services | 207-973-8000

EASTERN MAINE MEDICAL CENTER
Eastern Maine Otolaryngology specializes in the diagnosis, non-surgical, and surgical treatment of patients with disorders affecting their ears, nose, face, sinuses, throat, larynx, and neck. It is our goal to provide children and adults with an accurate diagnosis and treatment plan that is tailored to their needs in a timely fashion, and in the best environment possible.

**Our Services:**
- Allergy testing and management
- BAHA implants
- Ear infection treatments
- Ear surgery (otology)
- Head and neck cancer and tumors
- Hearing disorders and testing
- Laryngology and voice disorders
- Pediatric ear, nose and throat
- Rhinoplasty
- Salivary disorders
- Sinusitis (medical and surgical treatment)
- Skin cancer
- Sleep disorders
- Speech and swallowing disorders
- Thyroid surgery
- Tonsil surgery

**Our Providers:**

**Isac Bloch, MD**
*Education:* Tulane University School of Medicine
*Residency:* Icahn School of Medicine at Mount Sinai
*Certification:* American Board of Otolaryngology - Head and Neck Surgery

**Richard Lenz, MD**
*Education:* Tufts University Medical School
*Fellowship:* Virginia Commonwealth University
*Residency:* Icahn School of Medicine at Mount Sinai
*Certification:* American Board of Otolaryngology - Otolaryngology

**William Wood, MD**
*Education:* University of N. Carolina at Chapel Hill School of Medicine
*Residency:* University of Pittsburgh School of Medicine
*Certification:* American Board of Otolaryngology - Otolaryngology

**Barbara Daigle, FNP**
*Education:* Salem State College, University of New Hampshire
*Certification:* American Academy of Nurse Practitioners - Family Nurse Practitioner

**Paul Kluger, MD**
*Education:* UMDNJ New Jersey Medical School
*Residency:* Boston University Affiliated Hospitals Program
*Certification:* American Board of Otolaryngology - Otolaryngology

**Angela Tsai, MD**
*Education:* Boston University School of Medicine
*Residency and internship:* Boston Medical Center
*Board Eligible:* American Board of Otolaryngology

**Kathryn Morin, PA-C**
*Education:* University of New England, University of New England College of Health Professions
*Certifications:* Physician Assistant - NCCPA

At Focus Eye Care of Maine, we provide comprehensive eye care and ophthalmologic services. To assist you in learning as much as possible about your condition, we have educational brochures, models of the eye, visual aids, videos. Our experienced Certified Ophthalmic Technicians are also available to answer your questions.

Our Services

- Cataract
- Glaucoma
- Laser surgery
- Eyelid repair
- Strabismus
- Lesion removal on around the eye
- YAG capsulotomy
- Dry eye
- Retinopathy
- Correction of droopy eyelids and brows
- Tearing problems
- Thyroid-related eyelid and orbit problems
- Eyelid and orbit reconstruction
- Eyelid and orbit tumors

PROVIDERS

Jean Tibbetts, MD
Medical School: Tufts University School of Medicine
Residency: New England Medical Center Hospital
Board Certified: American Board of Ophthalmology - Ophthalmology
Clinical Interests: Cataracts, Glaucoma, Dry Eye, Neuroophthalmology, Sleep Apnea, Clinical Research

Zachary Klett, MD
Medical School: Yale Medical School
Residency: University of Michigan/W.K. Kellogg Eye Center
Oculoplastics Fellowship: University of Illinois, Chicago
Board Certified: American Board of Ophthalmology - Ophthalmology
Clinical Interests: Correction of droopy eyelids and brows, tearing problems, thyroid-related eyelid and orbit problems, eyelid and orbit reconstruction, and eyelid and orbit tumors
At Retina Associates of Maine, we provide specialized medical and surgical eye care for adults with diseases of the vitreous and retina.

Our Services

- Macular degeneration
- Vitreoretinal diseases
- Diabetic retinal diseases

PROVIDERS

**Michael Johnson, MD**

**Medical Education:** University of Virginia School of Medicine

**Internship:** University of Virginia, Roanoke Memorial Hospital

**Residency:** Johns Hopkins Hospital

**Fellowship:** University of Virginia School of Medicine, Wills Eye Hospital, Children's Hospital of Philadelphia, University of Pennsylvania

**Board Certifications:** American Board of Ophthalmology - Ophthalmology
EMMC Gastroenterology Center of Maine provides comprehensive digestive disease care for adult patients and offers a full spectrum of services from basic screening colonoscopy to more advanced procedures such as endoscopic retrograde cholangiopancreatography and endoscopic ultrasound as well as consultative services.

Our dedicated professionals keep abreast of the latest GI technology and medicine and work closely with the divisions of infectious diseases, hematology, oncology, surgery and primary care providers to ensure that our patients receive the best care possible.

Our Services:

- Screening and diagnostic colonoscopy
- Upper endoscopy and esophageal dilatation
- Capsule endoscopy
- Endoscopic ultrasonography (EUS)
- Endoscopic mucosal resection (EMR)
- Endoscopic retrograde cholangiopancreatography (ERCP)
- Consultative services over the age of 18
- Motility studies
  - Esophageal manometry
  - pH probe
  - Anorectal manometry
Amit Agrawal, MD, FACG
Clinical Interests: Esophageal and swallowing disorders and inflammatory bowel disease
Residency: Medical University of South Carolina
Fellowship: Medical University of South Carolina
Board Certification: American Board of Internal Medicine - Gastroenterology

Daniel Cassidy, MD, FACG
Clinical Interests: Esophageal and swallowing disorders and inflammatory bowel disease
Residency: Maine Medical Center
Fellowship: University of South Florida College of Medicine
Board Certification: American Board of Internal Medicine - Gastroenterology, Internal Medicine

Angel Fernandez, MD
Clinical Interests: General gastroenterology, hepatology, inflammatory bowel disease
Residency: Albert Einstein Medical Center
Fellowship: Albert Einstein Medical Center
Board Certification: American Board of Internal Medicine - Gastroenterology, Internal Medicine

Jean Larson, MD
Clinical Interests: Motility disorders and irritable bowel disease
Residency: University of Florida College of Medicine, University of Florida
Fellowship: University of Florida College of Medicine
Board Certification: American Board of Internal Medicine - Gastroenterology, Internal Medicine

Haq Nawaz, MD
Specialty Areas: Inflammatory bowel disease, colon cancer screening
Residency: University of Pittsburgh School of Medicine
Fellowship: University of Pittsburgh School of Medicine
Board Certification: American Board of Internal Medicine - Gastroenterology, Internal Medicine

Sandeep Singh, MD, FACG, FASGE
Specialty Areas: Endoscopic ultrasound (EUS) and endoscopic retrograde cholangiopancreatography (ERCP)
Residency: SUNY Downstate Medical Center
Fellowship: University of Texas Medical School at Houston
Board Certification: American Board of Internal Medicine - Gastroenterology, Internal Medicine

Joe Harkins, PA-C
Education: University of New England
Certification: National Commission on Certification of Physician Assistants

Julie Kingsbury, FNP
Education: University of Maine
Certification: American Nurses Credentialing Center, Family Nurse Practitioner

Nicole Moore, PA-C
Education: University of New England
Certification: National Commission on Certification of Physician Assistants
Comprehensive General Surgery

Our fellowship trained surgeons perform minimally invasive procedures using advanced laparoscopy for many general surgical diagnoses. EMMC’s Robotic Epicenter for Bariatric and General Surgery was the first of its kind in the country, and our robot allows our highly trained surgeons to perform procedures with fewer incisions, causing less pain and faster recovery times for patients. We leverage cutting edge technologies like fluorescence imaging to increase capabilities during complex surgical cases.

We evaluate and manage:

**COMPLEX DISEASES**
- Adrenal disease
- Breast diseases
- Colon and rectal diseases
- Gallbladder diseases
- Liver disease
- Parathyroid disease
- Pancreatic disease
- Skin cancer - melanoma, squamous and basal cell
- Spleen disorders
- Thyroid disease

**HERNIAS**
- Laparoscopic, robotic, and open
- Inguinal, femoral
- Incisional, ventral, umbilical
- Hiatal or diaphragmatic

**BARIATRIC SERVICES**
- Abdominoplasty
- Gastric bypass surgery
- Gastric sleeve surgery
- Intragastric Balloon
- Lap band surgery
- Non-surgical weight loss
- Panniculectomy
- Revisions of previous bariatric surgeries

**OTHER DISORDERS**
- Gastroesophageal reflux disease (GERD)

We are a multi-specialty practice with fellowship training and expertise in:
- Minimally invasive surgery
- Bariatric surgery
- Breast surgery
- Colon surgery
- General surgery
- Obesity medicine
- Oncology surgery
- Rectal surgery
- Robotic surgery
PHYSICIANS

Certification: American Academy of Nurse Practitioners

Carmen Van Dusen, FNP
Education: Saint Joseph's College of Maine
Certification: American Nurses Credentialing Center
The space and care provided by EMMC Breast Surgical Specialists is designed by women to provide comprehensive care for all breast conditions, both benign and malignant.

The atmosphere is warm, welcoming, comfortable, and relaxing with a focus on the patient experience. We take the time to ensure that every patient understands each step of the way from risk assessment and diagnosis to treatment and survivorship.

Our Providers:

**Kimberly Lieber, MD**  
*Education:* Northwestern University Medical School  
*Surgical Training:* University of Missouri at Columbia School of Medicine  
*Board Certifications:* American Board of Surgery, American Society of Breast Surgeons, Ultrasound Certification

**Susan O’Connor, MD**  
*Education:* University of Pittsburgh School of Medicine  
*Surgical Training:* Dartmouth-Hitchcock Medical Center  
*Board Certifications:* American Board of Surgery, American Society of Breast Surgeons, Ultrasound Certification

**Susan Steele, FNP-C**  
*Education:* Husson University  
*Certifications:* American Nurses Credentialing Center, American Academy of Nurse Practitioners, Family Nurse Practitioner

**Lindsay Jones, PA-C**  
*Education:* University of New England  
*Certifications:* NCCPA, Physician Assistant

**Rachael Wardwell, PA-C**  
*Education:* Massachusetts College of Pharmacy and Health Sciences  
*Certifications:* NCCPA, Physician Assistant

Our Services:

- Comprehensive breast evaluation
- Breast cancer risk assessment
- High risk follow up
- Integrated breast cancer treatment
- Onsite breast ultrasound
Our Services:

- Provide 24 hour on-site coverage to patients
- Trauma surgery and surgical critical care
- General elective and acute care surgery
- Single and multiport laparoscopic surgery
- Laparoscopic and robotic assisted surgery
- Feeding access procedures, including open, endoscopic laparoscopic gastrostomy and jejunostomy
- Minimally invasive endocrine surgery including adrenal, thyroid, and parathyroid surgery
- Gastrointestinal endoscopy
- Gastroesophageal reflux disease surgery
- Complex abdominal wall hernia repair
- Minimally invasive hernia repair
- Surgical wound and burn care
- Vagal nerve stimulation (VNS) therapy (a novel technique for patients with refractory seizures or depression)
- Oncologic surgery including thyroid, gastrointestinal, and soft tissue procedures

Oral Maxillo Facial

- Maxillofacial trauma
- Oral facial pathology
- Wisdom/bony impacted teeth extraction

Our Services

- Consultative geriatric assessment for elderly patients with multiple medical or cognitive (memory) problems. The practice assists healthcare providers in the management of older patients with complex health conditions including:
  - Dementia/Alzheimer’s
  - Pain
  - Functional decline
  - Multiple medications (polypharmacy)
  - Depression/Anxiety
  - Frailty
  - Gait instability and falls
  - Elder mistreatment
  - Memory problems
  - Weight loss and malnutrition
  - Osteoporosis
  - Visual and hearing loss
  - Delirium
  - Sleep problems
  - Incontinence
  - Caregiver stress

- Coordination of outpatient follow-up procedures for patients discharged from hospital inpatient services.
- Home visits to patients who are home-bound, in particular after transitions of care (hospital to home or skilled nursing facility to home).

PROVIDERS

- Medical Education: University of New England College of Medicine
- Residency: Eastern Maine Medical Center
- Board Certification: American College of Osteopathic Family Physicians, Family Medicine/OMT

**Diane Reynolds, PA-C**
- Education: University of New England
- Certification: National Commission of Certification of Physician Assistants
EMMC Plastic and Hand Surgical Specialists has been a part of Eastern Maine Medical Center since 2005. We offer a wide range of services for treatment of general and reconstructive hand and wrist problems, as well as general, reconstructive, and cosmetic plastic surgery services for problems that arise from head to toe. Our patients and their providers can expect to be treated with the utmost respect, professionalism, and confidentiality.

We Specialize In:

**BREAST RECONSTRUCTION**
- Autologous based reconstruction
  - Latissimus dorsi muscle flap
  - Transverse rectus abdominis myocutaneous (TRAM) flap
- Autologous fat grafting
- Implant-based reconstruction
- Nipple areola complex reconstruction and tattooing

**COSMETIC**
- Abdominoplasty (tummy tuck)
- Blepharoplasty
- Body lift, upper and lower
- Brachiaplasty (arm lift)
- Breast augmentation
- Breast mastopexy (Lift)
- Breast reduction
- Male breast surgery
- Brow lift
- Buttock Augmentation
- Cheek/chin augmentation
- Face/neck lift
- Facial rejuvenation, including:
  - Botox and other fillers
  - Fat grafting
- Liposuction
- Otoplasty (ear surgery)
- Rhinoplasty/septoplasty
- Thigh lift
- Vaginal rejuvenation/labiaplasty

**HAND SURGERY**
- Carpal tunnel release
- Cubital tunnel release
- Digital sympathectomy
- Fracture care of hand/wrist/forearm
- Ganglion cyst excision
- Nerve repair
- Tendon repair and transfers
- Trigger finger release
- Steroid injections for various conditions
- Surgical treatment of:
  - deQuervain's tenosynovitis
  - DRUJ instability
  - Dupuytren's contracture
  - Kienbocks disease
  - Osteoarthritis of the hand/wrist
  - TFCC tears

**GENERAL PLASTIC SURGERY**
- Abdominal wall reconstruction
- Facial reconstruction and fractures
- Full and split thickness skin grafts
- Limb salvage and reconstruction
- Muscle flaps
- Scar revisions
- Surgical treatment of skin cancers
- Sternal wound reconstruction
- Treatment of complex wounds and burns

**PEDIATRIC PLASTIC SURGERY**
- Cleft lip and palate
- Congenital melanocytic nevus
- Polydactyly
- Syndactyly

At the EMMC Hearing Center, we can test for hearing conditions for patients of all ages with comprehensive audio exams. To comfort our patients, auditory brain response tests are able to be completed in a natural sleep or using conscious sedation.

Our Providers:

**Danielle Morgan, AuD**
*Education*: University of Massachusetts, Amherst
*Fellowship*: American Academy of Audiology
*Certification*: Certificate of Clinical Competency in Audiology

**Dawn Dufkin-Britt, MS, CCC/A**
*Education*: Northern Arizona University
*Fellowship*: American Academy of Audiology
*Certification*: Certificate of Clinical Competence in Audiology from the American Speech-Language-Hearing Association

**Jaime Wesley, AuD**
*Education*: Purdue University
*Externship*: Brigham and Women’s Hospital

Our Services:

- Auditory brain response testing
- Comprehensive audio exams
- Electrocochleography
- Electronystagmography
- Immitance testing
- Newborn hearing screenings
- Otoacoustic emissions
- Videonystagmography
EMMC Infectious Disease Professional Services provides a full range of consultation, evaluation, and treatment for infectious diseases. Our physicians are unified in the struggle against the infectious diseases that reduce length and quality of lives in our community.

**Specializing in the treatment of:**

- Bacterial infections
- Diagnosis and management of skin and soft tissue infections
- Endocarditis
- Fungal infections
- Hepatitis B
- Hepatitis C
- HIV/AIDS
- Infections in the immunocompromised population
- Infections of prosthetic joints
- Lyme disease
- MRSA
- Osteomyelitis
- Parasitic infections
- Viral infections
- Wound infections

**PHYSICIANS**

**Clinical Interests:** HIV, tuberculosis, viral hepatitis, tropical diseases, and general infectious diseases

**Robert Pinsky, MD**
**Residency:** University of Iowa Hospital
**Fellowship:** Yale University School of Medicine
**Board Certifications:** American Board of Internal Medicine - Infectious Diseases
**Clinical Interests:** HIV, hepatitis C, tuberculosis, vector-borne infections, and hospital epidemiology

**M. Azhar Gangat, MD**
**Residency:** University of South Dakota Sanford School of Medicine
**Fellowship:** University of Rochester
**Board Certifications:** American Board of Internal Medicine - Internal Medicine
**Clinical Interests:** HIV/AIDS, atypical mycobacterial infections, and general infectious diseases
At Eastern Maine Medical Center’s Interventional Pain Management Clinic, we provide comprehensive care of pain syndromes including joint pain, lower back pain, sciatica, neck pain, chronic abdominal pain, groin and pelvic pain, post-thoracotomy pain, Herpes Zoster pain, and fibromyalgia.

We Specialize In:

- Epidural and steroid injections, and selective nerve root blocks
- Injection - soft tissue, joint, tendon sheath
- Interventional pain plan formulation for primary care providers
- Multidisciplinary pain management
- Nerve blocks - diagnostic and therapeutic for sacroiliac, facet, pudendal, ilioinguinal, genitofemoral nerve blocks, as well as hypogastric plexus blocks for pelvic pain
- Discography
- Patient education
- Physician consultation
- Radiofrequency ablations
- Sacroiliac and facet joint injections
- Spinal cord stimulator trials
- Sympathetic blocks - chronic regional pain syndrome management (CRPS)
- Trigger point injections - myofascial
EMMC Neurology Specialists' providers work with patients to diagnose and treat disorders of the central and peripheral nervous system. Using leading edge technology, we can help your patients better understand their nervous system, and develop a course of care that best fits their needs.

**We Specialize In:**

**OUTPATIENT SERVICES**
- Adult Neurology - Diagnosing and treating disorders affecting the central and peripheral nervous system
- Electromyography (EMG) - A diagnostic procedure that evaluates the electrical activity of the skeletal muscles
- Nerve Conduction Studies (NCS) - A diagnostic procedure that evaluates function of the motor and sensory nerves of the body

**STROKE CARE SERVICES**
- Specialized hospital stroke management and inpatient general neurology consultations
- Outpatient stroke clinics

**NEURODIAGNOSTIC SERVICES**
- Electroencephalography (EEG), ambulatory EEG
- Epilepsy Monitoring Unit (EMU) – Diagnosing subtypes of epilepsy, differentiating epileptic from nonepileptic (e.g., psychogenic) seizures
- Evoked Potentials (EP) – Evaluation of visual, auditory, and somatosensory nervous system connections (e.g., in multiple sclerosis)

EMMC Neurology Specialists
207-947-0558

EASTERN MAINE MEDICAL CENTER
Neuropsychological evaluations are usually recommended for adults when there are symptoms or complaints involving memory or thinking. Other symptoms that may warrant evaluation include changes in concentration, organization, reasoning, language, perception, coordination, or personality. These changes may be due to a number of medical, neurological, acquired psychological, or genetic causes.

Pediatric Neuropsychology:

Neuropsychological evaluation helps build a profile of a child’s functioning in areas such as memory, attention, perception, coordination, language, and personality. Children referred for a neuropsychological evaluation typically are experiencing problems such as: difficulty with learning, attention and behavior; a disease or developmental problem affecting the brain; or a brain injury from an accident, birth trauma, or other physical stress.

Our Providers at Webber East:

Christine Fink, PhD
Education: University of Maine - Orono, Minnesota State University

Dorothy Strom, PhD
Education: University of Michigan Medical School, Ball State University
Certification: American Board of Professional Psychology; American Academy of Clinical Neuropsychology; Clinical Neuropsychology; Clinical Neuropsychologist

James Thomas, PhD
Education: Indiana University - Purdue University Indianapolis
Michigan State University College, Center for Neuropsychological Rehabilitation - Indianapolis

Our Providers at Healthcare Mall:

Bonnie Creech, PhD
Education: City University of New York
Internship: Hillside Hospital-Long Island Jewish Medical Center
Fellowship: Los Angeles County-Harbor-UCLA Medical Center

Anthony Podraza, PhD
Education: Ohio State University College of Medicine
Certification: American Board of Professional Psychology, Clinical Neuropsychology
At EMMC Neurosurgery and Spine Specialists we are pleased to offer a broad array of neurosurgical services for surgical disorders of the central nervous system and spine. We boast an experienced team of neurosurgeons, supported by a commitment to around the clock critical care coverage by an excellent multidisciplinary team.

**Our Services:**

- Brain/Spine Trauma
- Brain Tumors
- Brain/Spine Biopsies/Stereotactics
- Carpal Tunnel
- Chiari Malformation
- Dorsal Column Stimulators
- Endoscopic 3rd Ventrulostomy
- Herniated Disc Surgery
- Hydrocephalus Treatment
- Intracerebral Hemorrhage
- Intrathecal Pumps
- Kyphoplasty
- Minimally Invasive Brain Surgery
- Minimally Invasive Spine Surgery
- Minimally Invasive SI Fusion
- Neurosurgical Trauma
- Normal Pressure Hydrocephalus
- Skull Base Surgery
- Spinal Stenosis
- Spine Fusion Surgery
- Spine Tumor
- Spondylolisthesis
- Subdural Hematoma Surgery
- Ulnar Neuropathy

EMMC Neurosurgery and Spine Specialists 207-973-9949
Hematology and Oncology Specialists

Our oncologists help individuals through diagnosis, treatment and survivorship. Each has studied and trained in the treatment of cancer with medicines – chemotherapy, biologics, and hormones. Our focus is on the whole person and family. Our team members include nurse practitioners, pharmacists and nurses specialized in cancer care, integrating the latest research into treatment offered is a hallmark of the care provided. We maintain strong connections with primary care and supportive care providers to assure the best possible seamless care.

Our physician team also includes those specialized in hematology, which includes the care and treatment of patients with hematologic concerns and blood diseases.

We Specialize In:

- Development of screening protocols for those at high risk for cancer development.
- Treatment of all types of cancer, sometimes called solid tumors.
- Treatment of benign tumors causing problems for surrounding tissue / organs.
- Hematologic malignancies such as lymphoma, myeloma, and leukemia.
- Coordination of support care needs.
- Promotion of return to wellness through survivorship planning.
- Evaluation of blood count related concerns.
- Diagnosis of hematologic disorders and management of anemia
- Bleeding disorders such as hemophilia, a group of hereditary genetic disorders that impair the body’s ability to control blood clotting.
- Conditions associated with platelets, such as diopathic thrombocytopenic purpura, and thrombocytopenia.
- Conditions affecting the hemoglobin molecule, called hemoglobinopathies like sickle-cell disease and thalassemia.

Audrey Garrett, MD
Medical Director, Medical Oncology
Education: Boston University School of Medicine
Residency: Vanderbilt University Medical Center
Fellowship: Vanderbilt University Medical Center
Board Certification: American Board of Internal Medicine - Medical Oncology

Thomas Openshaw, MD
Medical Director, Oncology Research
Education: Albany Medical College of Union University
Residency: Vanderbilt University Medical Center
Fellowship: Yale University School of Medicine
Certifications: American Board of Internal Medicine – Internal Medicine, Hematology, Medical Oncology

Please note: Some individuals may be referred to this practice for help in management of blood related concerns that are not associated with cancer.
ONCOLOGISTS AND HEMATOLOGISTS

Astrid Andreescu, MD
Education: Institute of Medicine and Pharmacy
Residency: St Mary’s Hospital
Fellowship: Fletcher Allen Health Care
Certifications: American Board of Internal Medicine – Internal Medicine, Hematology, Medical Oncology

Sigrid Berg, MD
Education: Duke University School of Medicine
Residency: Johns Hopkins Hospital
Fellowship: Hospital of the University of Pennsylvania
Certifications: American Board of Internal Medicine – Internal Medicine, Hematology, Medical Oncology

Philip Brooks, MD
Education: University of Pennsylvania School of Medicine
Residency: University of Pennsylvania Health System
Fellowship: Dartmouth-Hitchcock Medical Center
Certifications: American Board of Internal Medicine – Internal Medicine, Hematology, Medical Oncology

Catherine Chodkiewicz, MD
Education: UFR De Sante at Medecine Paris XIII Bobigny
Residency: Graduate Hospital
Fellowship: New York University School of Medicine
Certifications: American Board of Internal Medicine – Internal Medicine, Medical Oncology

Astrid Belalcazar Portacio, MD
Education: Universidad CES, School of Medicine, Medellin
Residency: Roger Williams Medical Center
Fellowship: Brown University; Roger Williams Medical Center
Certifications: American Board of Internal Medicine – Internal Medicine, Medical Oncology

Sheila Pascual, MD
Education: University of Santo Tomas, Philippines
Residency: Roger Williams Medical Center
Fellowship: Brown University; Roger Williams Medical Center
Certifications: American Board of Internal Medicine – Internal Medicine, Medical Oncology

Sarah Sinclair, DO
Education: University of New England College of Osteopathic Medicine
Residency: University of Connecticut School of Medicine
Fellowship: National Cancer Institute
Certifications: American Board of Internal Medicine – Internal Medicine, Medical Oncology

Allan “Louie” Cruz, MD
Education: University of Santo Tomas
Residency: University of Connecticut School of Medicine
Fellowship: Medstar Georgetown University Hospital/ Medstar Washington Hospital Center
Certifications: American Board of Internal Medicine – Internal Medicine; Board Eligible for the American Board of Internal Medicine - Hematology and Medical Oncology

Rodrigo Maegawa, MD
Education: Federal University of Paraña Medical School
Residency: St Luke’s - Roosevelt Hospital
Fellowship: University of Colorado
Certifications: American Board of Internal Medicine – Internal Medicine, Hematology, Medical Oncology

Debasmita Saha, MD
Education: Manipal University, Kasturba Medical College
Residency: Lincoln Medical & Mental Health Center Weill Cornell Medical College
Fellowship: University of Connecticut Health Center
Certifications: American Board of Internal Medicine – Internal Medicine; Board Eligible for the American Board of Internal Medicine - Hematology and Medical Oncology

Sarah Sinclair, DO
Education: University of New England College of Osteopathic Medicine
Residency: University of Connecticut School of Medicine
Fellowship: National Cancer Institute
Certifications: American Board of Internal Medicine – Internal Medicine, Medical Oncology

NURSE PRACTITIONERS

Ellen Arey, FNP-C
Education: University of Maine
Postgraduate Training: University of Maine

Diana Porter, FNP-C, AOCNP
Education: University of Maine
Postgraduate Training: University of Maine

Danielle Fogg, ANP-C, AOCNP
Education: University of Maine
Postgraduate Training: Duke University
Certification: Nurse Practitioner

Beth Sypher, FNP-C, AOCNP
Education: Virginia Commonwealth University
Postgraduate Training: University of Maine
Certification: Nurse Practitioner
Our service specializes in the care of newborns to age 25 with hematologic and oncologic concerns. We have a strong commitment to family centered care, which includes clear communication with referring providers.

We offer a full scope of infusion services, administered by compassionate experts. We work as a team with a specially trained nursing staff, child life specialists, social work, pharmacists, and patient advocates to offer compassionate, coordinated care to our young patients and their families.

Our Services:

- Assessment
- Care Coordination and Management
- Consultation
- Infusion Therapy
- Long Term Follow Up
- Supportive Care

Commonly Treated Conditions:

- Aplastic anemia
- Blood disorders
- Bone marrow disorders
- Hemochromatosis
- Hemophilia
- Brain tumors
- Hodgkin’s disease
- Leukemia
- Lymphoma
- Neurofibromatosis
- Other bleeding and clotting disorders (von Willebrands Disease, thrombosis)
- Platelet disorders
- Solid tumors (bone, sarcomas, etc.)
- Spherocytosis

Our Providers:

Sam Lew, MD
Education: University of Colorado School of Medicine
Fellowship: Naval Hospital - San Diego
Certifications: American Board of Pediatrics - Pediatrics
American Board of Pediatrics - Pediatric Hematology/Oncology

Chittalsinh Raulji, MD
Education: B.J. Medical College, Ahmedabad, India
Fellowship: Louisiana State University Hospital Health Center’s Children’s Hospital, New Orleans
Certifications: American Board of Pediatrics - Pediatrics
American Board of Pediatrics - Pediatric Hematology/Oncology

Nadine SantaCruz, MD, MPH
Education: University of Colorado School of Medicine
Fellowship: Albert Brown School of Medicine, Hasboro Children’s Hospital; The Dana Farber Cancer Institute
Certifications: American Board of Pediatrics - Pediatrics
American Board of Pediatrics - Pediatric Hematology/Oncology

Infusion Treatments:

- Anemia
- Antibiotics
- Autoimmune disorders
- Arthritis (JIA/JRA)
- Blood products
- Chemotherapy
- Dermatomyositis
- Gastrointestinal issues
- Intravenous immunoglobulin
- Iron
- Remicaide
- Steroids

Our comprehensive practice can take care of your orthopedic needs. Patients benefit from our team’s depth and expertise, which results in quality care and excellent outcomes. We provide clear, consistent follow-up with other providers to ensure good coordination of care.

We know that patients don’t want to wait when they need to see a specialist, and we are committed to offering prompt appointments. Call us - we’ll get your patient in quickly.

Our office is conveniently located in the EMMC Healthcare Mall on Union Street.

We Specialize In:

**ADULT RECONSTRUCTION**
- Hip osteoarthritis
- Knee osteoarthritis
- Osteonecrosis (AVN)
- Bony malalignment

**SPORTS**
- AC joint injuries
- ACL and other knee ligament injuries
- Articular cartilage injuries
- Meniscus tears
- Patellofemoral pain and instability
- Shoulder instability and dislocations

**SHOULDER AND ELBOW**
- Shoulder osteoarthritis
- Elbow osteoarthritis
- Biceps tendonitis and ruptures
- Calcific tendonitis
- Tennis and golfer’s elbow
- Elbow instability
- Frozen shoulder
- Rotator cuff tears

**HAND**
- Carpal tunnel
- Cubital tunnel
- Trigger finger
- Hand osteoarthritis

**FOOT AND ANKLE**
- Reconstruction
- Traumatic injuries

**GENERAL ORTHOPEDIC MANAGEMENT**
- Fracture care
- Injections – cortisone and viscosupplements

**ORTHOPEDIC ONCOLOGY**
- Bone tumors
- Soft tissue tumors

Revised 8/2017
PHYSICIANS

Jessica Aronowitz, MD
Specialty: Shoulder and elbow surgery
Residency: University of Miami Jackson Memorial Hospital
Fellowship: Mayo Clinic
Board Certification: American Board of Orthopaedic Surgery

Paul Benoit Jr., MD
Specialty: Foot and ankle surgery
Residency: Beth Israel-Deaconess Hospital, Harvard Combined Orthopedic Program
Fellowship: Beth Israel-Deaconess Hospital, Brigham and Women's Hospital

Hannah Castrucci, MD
Specialty: Orthopedic oncology
Residency: SUNY Health Science Center at Syracuse
Fellowship: University of Washington Medical Center

Carmen Crofoot, MD
Specialty: Hip and knee surgery
Residency: Albert Einstein Medical Center
Fellowship: University of Utah Orthopaedic Center
Board Certification: American Board of Orthopaedic Surgery

David Newman, MD, FRCSC
Specialty: Hip and knee surgery
Residency: McMaster University
Fellowship: Oakville Trafalgar Memorial Hospital, Sir Charles Gairdner Hospital, and Queen's University
Board Certification: Royal College of Physicians and Surgeons of Canada

Paul Benoit Jr., MD
Specialty: Hip and knee surgery
Residency: Beth Israel-Deaconess Hospital, Harvard Combined Orthopedic Program
Fellowship: Beth Israel-Deaconess Hospital, Brigham and Women's Hospital

Stephen Thompson, MD, MEd, FRCSC
Specialty: Sports medicine
Residency: University of Maryland, R. Adams Cowley Shock Trauma Program
Fellowship: University of Western Ontario, Fowler Kennedy Sports Medicine Clinic; Oakville Sports Injury Clinic
Board Certification: Royal College of Physicians and Surgeons of Canada - Orthopedic Surgery; American Board of Orthopaedic Surgery

NON-PHYSICIAN PROVIDERS

Leah Drapeau, PA-C
Education: MCPHS University
Board Certifications: National Commission on Certification of Physician Assistants

Kathleen Forti-Gallant, FNP
Education: University of Maine
Board Certifications: American Nurses Credentialing Center and American Academy of Nurse Practitioners

Anna Honsinger, PA-C
Education: University of New England
Board Certifications: National Commission on Certification of Physician Assistants

Darren Pelletier, PA-C
Education: Seton Hill University
Board Certifications: National Commission on Certification of Physician Assistants

Hannah Castrucci, MD
Specialty: Orthopedic oncology
Residency: SUNY Health Science Center at Syracuse
Fellowship: University of Washington Medical Center

Carmen Crofoot, MD
Specialty: Hip and knee surgery
Residency: Albert Einstein Medical Center
Fellowship: University of Utah Orthopaedic Center
Board Certification: American Board of Orthopaedic Surgery

David Newman, MD, FRCSC
Specialty: Hip and knee surgery
Residency: McMaster University
Fellowship: Oakville Trafalgar Memorial Hospital, Sir Charles Gairdner Hospital, and Queen's University
Board Certification: Royal College of Physicians and Surgeons of Canada

Paul Benoit Jr., MD
Specialty: Hip and knee surgery
Residency: Beth Israel-Deaconess Hospital, Harvard Combined Orthopedic Program
Fellowship: Beth Israel-Deaconess Hospital, Brigham and Women's Hospital

Stephen Thompson, MD, MEd, FRCSC
Specialty: Sports medicine
Residency: University of Maryland, R. Adams Cowley Shock Trauma Program

EMMC Pediatric Cardiology routinely provides cardiac consultation and diagnostic cardiac imaging for children throughout our region who need evaluation for potential congenital or acquired heart disease. Our board certified pediatric cardiologists assess infants, children, and young adults with problems such as heart murmurs, chest pain, palpitations, or fainting spells. They also provide continuing care of patients following open heart surgery, or those with known cardiac disease.

Our Services:

- Echocardiography
- Electrocardiography
- Graded exercise testing
- 24-hour ambulatory electrocardiography
- 30-day ambulatory electrocardiography

Our Providers:

Sean Hagenbuch, MD
Residency: Baystate Medical Center
Fellowship: Cincinnati Children's Hospital Medical Center

EMMC Pediatric Surgery of Maine specializes in the full spectrum of pediatric general surgical needs, including neonatal surgery, visceral surgery, hernias, phimosis, and skin lesions. Our surgeons work both individually and with an interdisciplinary team to diagnose and treat many complex pediatric conditions.

**Common pediatric surgical problems treated:**

- Appendicitis
- Umbilical hernias and epigastric hernias
- Inguinal hernias and undescended testicle
- Phimosis or redundant foreskin
- Neck fistulas
- Benign masses such as lipoma, ganglion cysts, dermoid cyst, nevus
- Hypertrophic pyloric stenosis

**Conditions diagnosed and treated as an interdisciplinary team:**

- Neonatal conditions requiring surgery
- Complex congenital malformations
- Chest wall deformities
- Pediatric solid tumors
- Morbus Hirschprung

EMMC Rheumatology Specialists

At EMMC Rheumatology Specialists, our experts care for patients with arthritis, lupus, scleroderma, and vasculitis. We diagnose and treat chronic and rare diseases, and debilitating disorders while coordinating care with local physical therapists and nurse educators.

We offer infusion services within the clinic and musculoskeletal ultrasound guided injection procedures. These modern treatments can offer relief from symptoms and help improve patients’ lives.

If you know someone struggling with an inflammatory, autoimmune, or musculoskeletal disease, please ask for a referral from a primary care provider.

Our Providers:

Crisostomo Rodrigo Baliog Jr., MD
Education: University of the Philippines, Diliman
Internship, Residency, Fellowship: Roger Williams Medical Center
Certifications: American Board of Internal Medicine-Rheumatology; American Board of Internal Medicine-Internal Medicine; Musculoskeletal Ultrasound

Malithi Jayasundara, MD
Education/Residency: University of Illinois Medical College at Peoria
Fellowship: Duke University Medical Center
Certifications: American Board of Internal Medicine-Internal Medicine

Denise Peabody, RN, BSN
Education: Husson College
Certification: Health and Wellness Coach

Diagnosis and treatment for:
- rheumatoid arthritis
- lupus/SLE
- vasculitis
- osteoarthritis
- inflammatory arthritis
- dermatomyositis
- polymyositis
- scleroderma
- bursitis
- tendinitis
- gout
At Surgical Endoscopy of Maine our team strives to provide compassionate care in a timely fashion. We are conveniently located at EMMC on State Street in Bangor where we perform both surgery and endoscopy.

We Specialize In:

EMMC Vascular Care of Maine is the only full service center in Maine solely dedicated to the diagnosis and treatment of arterial and venous disorders. We offer the latest technology and minimally invasive approaches, including carotid stenting, stent graft repair of aneurysms, lower extremity atherectomy, and laser/radiofrequency vein ablation.

We participate in the Vascular Study Group of New England, whose mission is to improve the care of patients with vascular disease. By collecting and exchanging information, the group strives to continuously improve the quality, safety, effectiveness, and cost of caring for patients with vascular disease.

Our patients have access to EMMC’s Vascular Lab, which has earned the Intersocietal Accreditation Commission’s Vascular Testing Seal of Accreditation, the healthcare industry’s gold standard for vascular diagnostic testing.

We Specialize In:

- Carotid artery disease
- Abdominal aortic aneurysm
- Peripheral arterial disease (PAD)
- Varicose veins

We Have Comprehensive Programs Dedicated To:

- Wound healing
- Management of chronic edema
- Venous disease
- Patient education
- Dialysis access

EMMC Vascular Care of Maine  207-973-6670
Women's Healthcare of Maine and Maternal Fetal Medicine offers personalized comprehensive, quality obstetric and gynecologic care for women, committed to women’s health care needs throughout their lives. Offering both obstetrical and gynecological care, including routine and high risk services and with a perinatologist on staff, we are able to help women with first trimester screenings, level II ultrasounds and other issues that may affect a pregnancy. We provide a friendly atmosphere with quality care and convenient hours, along with a supportive staff to assist you.

**Our Services:**
- Women’s wellness
- Routine annual breast exam
- Pap smear
- Colposcopy
- LEEP conization cryotherapy
- Hysteroscopy
- Gynecological surgery
- Obstetrical and high risk care
- 3D ultrasounds
- Infertility
- Menopausal management
- Urinary management
- Amniocentesis
- Consultation for obstetrical and medical complications of pregnancy
- Genetic counseling
- Non-stress test
- Pre conceptual counseling

**ULTRASOUNDS**
- Aneuploidy screening
- Biophysical profile
- Doppler
- Fetal anatomical survey
- First trimester screening
- Identification of follicle growth
- Ovarian cancer screening
- Sonohysterography
- Fetal echocardiography

**HIGH RISK PRENATAL CARE**
Maternal Fetal Medicine provides comprehensive prenatal care to expectant women and their unborn babies who are high-risk due to potential pregnancy-related problems or special health reasons. Prenatal care includes frequent visits with our specialized clinical staff.

We will review the plan of care, answer any questions, discuss concerns and provided educational and emotional support needed to guide you through your high-risk pregnancy. Additional services include Fetal Heart Rate monitoring and diabetes education, along with many other diagnostic and laboratory tests.

**GENETIC COUNSELING**
Though most babies are born healthy, there is a 3-4 percent chance in any pregnancy for a baby to have some type of birth defect. Many couples wonder if there are factors in their health or family history that increase this chance. In some cases, genetic counseling may help answer these questions.
